

HackRisk

EXECUTIVE WORKSHOP

They don't hack the company. They hack **you.**

Your authority, your approvals and your public profile are what attackers want. In 45 minutes we show your leadership team exactly how they get them, and how to stop it.

- ✓ Live deepfake demonstration
- ✓ Built for decision-makers, not IT teams
- ✓ Leave with actions you can use the same day

LENGTH	FORMAT	FOR
45 minutes	In person	Boards & C-suite

£2,000

per session

WHAT YOU'LL LEARN

Walk out knowing what to spot, and what to change.

01 Spot a deepfake before you act on it

The tells of a cloned voice or face on a call, and the questions that expose it.

02 Recognise CEO fraud and phishing

Urgency, secrecy, a new supplier: the warning signs that come up again and again.

03 See what your public profile gives away

How LinkedIn, interviews and talks become material for targeting you.

04 How to protect yourself

The personal habits that secure your accounts, devices and family.

05 How your company can protect you

Verbal codes, dual authorisation and call-backs that stop fraudulent payments.

06 Get set up on HackRisk

We onboard you to the platform so you can see and track your own exposure.

WHY ATTEND

- ✓ Your leaders are the people most likely to be targeted
- ✓ Scenario-led and hands-on. No technical knowledge needed
- ✓ Includes onboarding to the HackRisk platform
- ✓ Only 45 minutes, delivered at your office

£2,000

per session
